AGREEMENT AND SIGNATURE
<p>Medford Water may deny any application that does not comply with all of the WaterSense Smart Irrigation Controller Program Eligibility Instructions. Medford Water makes no representation or warranty regarding the controllers eligible for rebate. Any claim based upon any defect or failure of performance of a controller purchased by the applicant should be pursued with the manufacturer or distributor. By participating in the program, the applicant waives and releases Medford Water from any and all claims and causes of action arising out of the purchase, installation, or use of the controller(s) purchased in connection with the rebate program. Verification inspections are not a certification, warranty, or other approval with respect to the applicant's compliance with applicable laws, ordinances and building codes. Medford Water reserves the right to alter this program at any time. Smart Controller rebate availability is dependent upon available funds each year.</p> <p>By signing my name, I hereby agree to all terms and conditions set forth herein.</p> <p>Applicant / Owner Signature: _____ Date: _____</p>

PROGRAM ELIGIBILITY & REBATE AMOUNTS

- ◆ Property must have a water utility account with Medford Water in good standing.
- ◆ Applicant must participate in a free sprinkler checkup, in which Medford Water staff will evaluate the property's landscape and irrigation system to determine eligibility for rebate. If major improvement within the irrigation system or landscape is needed, the improvements will need to be completed prior to rebate issuance. Approval is at the discretion of Medford Water staff.
- ◆ Submit the application, receipt, and a picture of the old controller to Medford Water, either by mail or email. You may also provide the application and receipt at the time of the sprinkler checkup and controller inspection.
- ◆ New smart controller must be inspected by Medford Water staff before rebate is issued. Controller must be properly programmed and functioning.
- ◆ For hose bib smart controllers, ONLY two controllers per property are eligible for the rebate.
- ◆ Rebate applies only to the installation of WaterSense® certified smart irrigation controllers. Eligible models are identified with a WaterSense label. Verify eligibility by reviewing the list of qualifying controllers and additional required equipment on the EPA website: www3.epa.gov/watersense/product_search.html. Controller model number(s) must match the numbers on the WaterSense list.
- ◆ Additional equipment, such as a weather station, may be required for controller to qualify. Please visit the website listed above to confirm you have all of the mandatory equipment installed.
- ◆ Rebates will not be given on pre-existing controllers and/or equipment. Rebate will only be given for replacement of existing (non-WaterSense labeled) irrigation controller(s) or installation of new smart irrigation controller(s) where controller(s) had not already existed. Product(s) must appear on purchase receipt dated on or after July 1, 2017.
- ◆ Rebates requested by non property owners require written consent from property owner with signature.
- ◆ Allow 4 to 6 weeks for the processing of each rebate check.

\$250

For installation of a WaterSense certified smart irrigation controller with
GREATER THAN 12 STATIONS
 (or up to purchase price of controller and additional required equipment)

\$200

For installation of a WaterSense certified smart irrigation controller with
